To the Management and Shareholders of Mermeren Kombinat AD, Prilep

#### Introduction

We have reviewed the accompanying interim financial information consisting of Statement of financial position of Mermeren Kombinat AD, Prilep ("the Company") as of 30 June 2013 and the related statements of comprehensive income, changes in equity and cash flows for the six - month period then ended and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with International Accounting Standard 34, 'Interim financial reporting'. Our responsibility is to express a conclusion on this interim financial information based on our review.

#### Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. A review of interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not present fairly, in all material respects, the financial position of the Company as of 30 June 2013, and of its financial performance and its cash flows for the six – month period then ended in accordance with International Accounting Standard 34.

The effects of applying these standards are described below.

Significant accounting policies (continued)

#### IFRS 10 'Consolidated Financial Statements' (IFRS 10)

IFRS 10 supersedes IAS 27 'Consolidated and Separate Financial Statements' (IAS 27) and SIC 12 'Consolidation-Special Purpose Entities'. IFRS 10 revises the definition of control and provides extensive new guidance on its application. These new requirements have the potential to affect which of the Group's investees are considered to be subsidiaries and therefore change the scope of consolidation. The requirements on consolidation procedures, accounting for changes in non-controlling interests and accounting for loss of control of a subsidiary are unchanged. Management has reviewed its control assessments in accordance with IFRS 10 and has concluded that there is no effect on the classification (as subsidiaries or otherwise) of any of the Group's investees held during the period or comparative periods covered by these financial statements.

#### IFRS 11 Joint Arrangements (IFRS 11)

IFRS 11 supersedes IAS 31 'Interests in Joint Ventures' (IAS 31) and SIC 13 'Jointly Controlled Entities— Non-Monetary-Contributions by Venturers'. It aligns more closely the accounting by the investors with their rights and obligations relating to the joint arrangement. In addition, IAS 31's option of using proportionate consolidation for joint ventures has been eliminated. IFRS 11 now requires the use of the equity accounting method, which is currently used for investments in associates.

#### IFRS 13 'Fair Value Measurement' (IFRS 13)

IFRS 13 clarifies the definition of fair value and provides related guidance and enhanced disclosures about fair value measurements. It does not affect which items are required to be fair-valued. IFRS 13 applies prospectively for annual periods beginning on or after 1 January 2013.

#### Revised version of IAS 19 'Employee Benefits' (IAS 19R)

IAS 19R makes a number of changes to the accounting for employee benefits, the most significant relating to defined benefit plans. IAS 19R:

- eliminates the 'corridor method' and requires the recognition of re-measurements (including actuarial gains and losses) arising in the reporting period in other comprehensive income.
- changes the measurement and presentation of certain components of the defined benefit cost. The net amount in profit or loss is affected by the removal of the expected return on plan assets and interest cost components and their replacement by a net interest cost based on the net defined benefit asset or liability.
- enhances disclosures, including more information about the characteristics of defined benefit plans and related risks.

IAS 19R applies retrospectively in accordance with its transitional provisions.

#### Annual Improvements 2009-2011 (the Annual Improvements)

The Annual Improvements made minor amendments to a number of IFRSs. The only amendment that affects these financial statements clarifies that the total assets and liabilities for a particular reportable segment are required to be disclosed in interim financial statements if this information is regularly provided to the chief operating decision maker and there has been a material change since the most recent annual financial statements.

#### 4 Foreign currency translation

#### Functional and presentation currency

The Company maintains its accounting records and prepares its statutory accounts in local currency, i.e. in Macedonian Denars, which is the Company's "functional currency". These financial statements are presented in Euros, which is "the presentation currency" of the Company's ultimate Parent.

The results and financial position of the Company are translated into the presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- Income and expenses for each statement of comprehensive income are translated at average exchange rates; and,
- Resulting exchange differences are recognized as financial income or expense, respectively, in each statement of comprehensive income for the period they relate to.

#### Transactions and balances

Transactions denominated in foreign currencies have been translated into Macedonian Denars at the middle exchange rate at the date of the transaction. Assets and liabilities denominated in foreign currencies are translated into Macedonian Denars ("Denars") at the National Bank of the Republic of Macedonia middle exchange rate on the last day of the reporting period. All gains and losses resulting from foreign currency translation or exchange are included in the statement of comprehensive income as financial income or expense in the period in which they arose. The middle exchange rates used for conversion of the statement of financial position items denominated in foreign currencies are as follows:

|             | 30 June 2013   | 30 June 2012   | 31 December 2012 |
|-------------|----------------|----------------|------------------|
| 1 USD       | 47.1576 Denars | 48.9532 Denars | 46.6510 Denars   |
| 1 EUR       | 61.6821 Denars | 61.6321 Denars | 61.5000 Denars   |
| Average EUR | 61.5911 Denars | 61.5686 Denars | 61.5025 Denars   |

#### 5 Estimates

When preparing the interim financial statements, management undertakes a number of judgments, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgments, estimates and assumptions made by management, and will seldom equal the estimated results.

The judgments, estimates and assumptions applied in the interim financial statements, including the key sources of estimation uncertainty were the same as those applied in the Company's last annual financial statements for the year ended 31 December 2012.

The only exception is the estimate of the provision for income taxes which is determined in the interim financial statements using income tax rate of 10% applied on non – deductible items for tax purposes adjusted for tax credit, and as well as on the distributed profit for dividends to legal entities – non-residents and to individuals.

As at 30 June 2013, the Company's Management has made an estimation of the useful lives of certain assets on the basis of which a correction has been made, as presented in the table below:

**Estimates (continued)**

#### 7 Segment reporting

Management identifies its operating segments into the following two operating segments:

- quarry;
- factory.

Each of these operating segments is managed separately as each segment requires different technologies and other resources, as well as marketing approaches. These operating segments are monitored and strategic decisions are made on the basic of adjusted segment operating results.

During the six month period to 30 June 2013, there have been no changes from prior periods in the measurement methods used to determine operating segments and reported segment profit and loss.
